ZOMBIE KILLERS OUT OF CONTROL

You could be white. You could be black. You could be Hispanic. This summer you will be walking down the street with your family and a cruising car will pull up beside you. A group of young black men will jump out of the car and surround you.

As they close in on you, you may notice that their eyes show no emotion, their pupils are pinpoints. Your throat will be slashed, your wife will be stabbed, your children's heads will be smashed against the pavement. The attackers will be grinning or laughing.

If you go to the police to report the attack, no action will be taken. Investigation will be squashed; the press will black it out: your name will be erased.

Why will this happen? Because you did nothing to get Lincoln Hospital's brainwashing center closed down.

Every day, doctors from the Albert Einstein College of Medicine, working for the Central Intelligence Agency's Law Enforcement Assistance Administration are taking Black and Latin youth off South Bronx streets, stringing them out on methadone and making them hysterically crazy and paranoid as they can, brainwashing them with black nationalism and cop hatred.

Many zombie "graduates" of Lincoln brainwashing have already been deployed throughout the continent, and they are out of control, crazily shooting cops, holding hostages and murdering children. A Newark business executive was killed and a mid-Manhattan apartment was terrorized recently. In both cases initial press reference to Black Liberation Army involvement was killed in subsequent reports, for fear of feeding demands to break up the brainwashing apparatus.

This is how the CIA has created the Black Liberation Army and all other terrorist groups: IRA "provos," Italian "Red Brigades," and the now-defunct "Symbionese Liberation Army."

Financial kingpin Rockefeller, whose orders the CIA execute, wants working people so scared they will accept a military takeover of North American and European governments this year — so scared that they will accept labor camps and starvation, Rockefeller's murderous "solution" to the international collapse of the debt-strangled world economy. Cop-killing and random terrifying murders this summer are essential to this takeover.

The U.S. Labor Party went to Bronx's Lincoln Hospital on May 15th for a press conference to expose the training of the Black Liberation Army at the Hospital's Detox Center. Hospital staff members led a crowd of 50 zombies to attack the Labor Party organizers, shooting, stabbing and clubbing them.

The Coverup

Bronx District Attorney Mario Merola had two assailants in

the attempted murder picked up, charged with minor offenses and released on bail. In response to the Labor Party demand for a grand jury investigation of the CIA/LEAA brainwashing apparatus, Merola responded by ordering the Health and Hospitals Corporation to halt their investigation of Lincoln Hospital, ordering police not to get into Lincoln Hospital, and blocking a Grand Jury investigation. Merola's Assistant D.A. Moorer excuses this with the incredible statement, "It's not illegal to be in the BLA."

Merola himself is personally involved in CIA-funded counterinsurgency, slave labor and brainwashing projects in New York City. He sits on the board of directors of the Vera Institute of Justice, a CIA-financed agency that hires out methadone addicts to garment manufacturers and other employers as cheap, willing slave labor, working for a fix. Merola was Rockefeller's direct stooge when he "Watergated" Mario Biaggi during the 1973 New York mayoral elections because Biaggi was not beholden to the Rockefeller machine.

When you close Lincoln Detox, you are wrecking a vital link in the Rockefeller-CIA chain, a chain that leads through hundreds of illegal CIA operations that involve the Bronx D.A.

New York's cops are shaken. They know what's going on and they don't like being set up for death. They voted last week to throw out the incumbent leaders of the Patrolmen's Benevolent Association for the first time in 23 years.

Every significant politician in North America knows the facts. Almost all are afraid to move.

Why let another crop of "BLA" terrorists graduate from Lincoln Hospital? Are you willing to die for Rockefeller?

Close Lincoln Detox!

Call your city councilman, your congressman, and other elected officials. Demand that the city council investigate Lincoln Detox. Demand that the city council cut off all funds to Lincoln Detox. They intend to re-fund it by July 1.

Call Monroe Cohen, chairman Committee on Public Safety, City Council 852-4454; call Carter Burden, Finance Committee, City Council 427-4405; call Mario Biaggi, Bronx Congressman 931-0100.
